

Accelerate Your Project Portfolio Management (PPM) Tool Performance.

UNIQUE INSIGHTS. UNPARALLELED RESULTS.

Over 90% of the PMOs aren't realizing value from their Project Portfolio Management (PPM) tools. Are you?

In some cases, the challenge is the PPM tool while in others it's the implementation and configuration of the tool. A few common challenges and symptoms we see:

- Lack of understanding and adoption of the tool
- Tool complexity and disjointed tool and process
- Multiple sources for project, resource and financial data
- Manual project data collection and reporting
- Guesswork rather than data-driven decisions and resolution on project, resource and portfolio issues
- Lack of a vision and roadmap for the PPM tool
- Disjointed project management and agile teams
- The list goes on...

What we do!

Regardless of the situation with your PPM tool and related process, we help you transform to a whole new level of maturity in prioritizing, planning and executing on project / program work and product development while actively governing and managing the overall technology portfolio for the enterprise.

All this with tightly integrated demand, resource, financial and timesheet management and superior tool adoption by stakeholders!

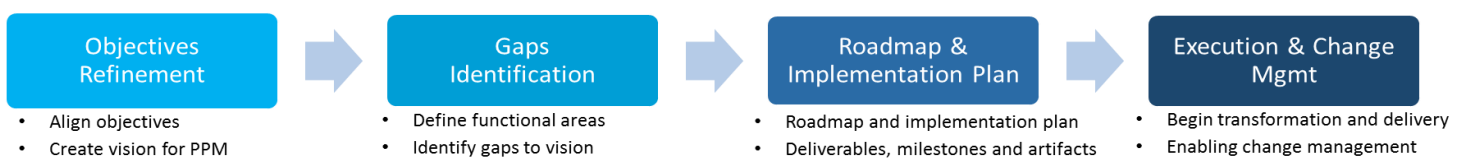

Benefits You can Expect!

- Alignment of projects to corporate strategy
- Single view of demand across the enterprise
- Active and informed resource, priority and portfolio conflict management and adjustments
- Ideation, innovation and what-if scenarios in the tool
- Definition and realization of business case

- Single source of truth for project, financial, resources, time and portfolio data
- Fully integrated project lifecycle with agile development and IT service (post production)
- Actionable insights for key decisions across portfolio
- Informed and data-driven approach
- The list goes on...

Our Implementation Approach

Instead of "rip and replace" the tool as a default recommendation, we get to the root cause, develop the optimal course of action based on your environment and gain results in the shortest amount of time. The steps we follow:

Progressive PMO is a consulting, software products and web/mobile development company, based in Pittsburgh, PA.
